*dual in one and one in duality*

the chicken  
or the egg:  
which came first?

such questions  
are  
naturally meaningless;  
for  
the chicken is  
a being egg  
and  
the egg  
in turn  
is a becoming chicken;

similarly  
as a seed is  
a being plant and a tree  
and  
the plant and the tree is  
a becoming seeds;

the same way  
as the water of the sea  
is a being waves  
and  
the innumerable waves are  
the becoming sea;

exactly the same way  
a question is  
a being answer  
and  
the answer is  
a becoming question

all these are  
the two faces of  
the same coin:  
the two facts; the two truths; the two realities  
always together;  
involved in  
the never-ending  
and ever-happening being of  
creation-destruction-and-creation
